

# Adult Therapist

Triangle Family Services has an exceptional opportunity for one or more therapists to join our Individual and Family Counseling Division. Professional training and development opportunities are provided and supported. The agency will consider applicants who can assume a full-time position encompassing the full scope of work, or two part-time positions that divide up the primary responsibilities.

Primary responsibilities include:

- Provide diagnostic and psychotherapeutic services to adults, including diagnostic evaluation, treatment planning, therapy, case management and collateral contacts as appropriate.
- Conduct court-ordered and program-targeted mental health assessments.
- Conduct court-ordered and program-targeted substance use disorder assessments and front line treatment.
- Serve as member of homeless engagement team to provide support to and for clients with mental health challenges; this includes office-based and community-based services.
- Participate in team rotation for coverage of group services, such as parent support group and co-parenting class.
- Coordinate services and client care with full spectrum of service providers and stakeholders in client's case as necessary and as indicated, to include participation in collaborative meetings.
- Maintain written/electronic documentation of all services provided in accordance with agency and Medicaid standards and procedures.

Qualifications:

- LCAS and MSW or allied mental health field; current licensure (or eligibility) to practice in NC.
- Thorough knowledge of mental health/illness, diagnosing using current DSM and individual and group treatment modalities.
- Thorough knowledge of code of ethics of professional degree and licensing board, as well as cultural and socioeconomic characteristics of persons served.
- Strong writing and communication skills.
- Experience working with adults and families who have experienced trauma; experience treating addiction.
- Flexibility to schedule clients during evening or weekend hours at least once a week.
- Bilingual (English-Spanish) and trained in trauma EBTs a plus.
